Ni Kadek Yuni

Professional Profile

An original founder and developer of WOA, Ni Kadek has over 10 years experience in the financial trading industry. She has worked as a key developer in WOA's trading model and has been instrumental in developing advancements and expansion of WOA's trading model and platform. In addition, she has been a valued contributor in areas of testing and progressions in WOA'S base algorithms. Kadek has further experience in CQG code programming, cloud based placement and data storage calculations, otherwise known as burst computing.
