WHAT IS MARKET TIMING?

KEY DISCUSSION POINTS

Market timing is the ability to time the market – to determine – hopefully with some degree of accuracy when the market will shift in the opposite direction – any trader will tell you that is difficult to impossible – and that would be true – until now.

ABOUT THE GROUP

OUR STORY

WOA TECHNOLOGY WAS SET UP TO GO TO NEW AREAS IN TRADING. THE MOST COMMON ARE FUNDAMENTAL AND TECHNICAL ANALYSIS.

SOME TRADERS TRADE ON CHARTS AND TECHNICAL PATTERNS AND SOME ON NEWS BASE EVENTS AND REPORTS WHICH IS REFERRED TO AS FUNDAMENTAL ANALYSIS. THERE IS ALSO QUANTAMENTAL ANALYSIS, WHERE AS YOU MIX BOTH A FUNDAMENTAL APPROACH BUT LOOK TOWARDS TECHNICALS FOR EXACT ENTRY AND EXIT POSITIONS.

WOA WANTED TO GO BEYOND ALL OF THIS AND FOCUS ON EXACT MARKET TIMING POINTS WHERE THE MARKET IS AT IT'S MOST EXHAUSTED POINT AND A LIKELYHOOD IS AT IT'S HIGHEST. TO CALCULATE AND MEDIATE WHERE THIS MOVEMENT IS MOST PROBABLE WE WENT THE WAY OF THE FUTURE - BUILDING OUT OUR OWN PROPRIETEARY COMPUTER SYSTEM TO TAKE ALL OUR INPUT AND NOT JUST ANALIZE THE DATA SETS BUT TO CONSTANTLY THROUGH ATTIRTION, ENHANCE - THIS IS ARTIFICIAL INTELLIGENCE AND MACHINE LEARNING AT IT'S CORE AND IT IS WHAT DRIVES US AND WOA.

OUR MISSION AND VISION

WHAT WE AIM TO BE

Leading technology in the financial markets. Looking at charts and in trying to determine in real time where the market will reverse and move anyone can call correctly sometimes. To do that in a systematic fashion constantly and get it right over and over at the highest degree possible we don't believe anyone can really do that - us either - so our team of very dedicated and capable financial engineers built - WOA
